

macOS Support Essentials 15

For people who manage computer networks or computer labs that run macOS, and people who support Mac users.

Course outline
Duration: 3 days

Overview:

macOS Support Essentials 15 is a three-day course that teaches the best ways to support macOS Sequoia users. The course includes lectures, demonstrations, group discussions and hands-on exercises that provide real-world experience.

Course Objectives:

After you've completed the guide, you should be able to:

- Explain how macOS Sequoia works
- Explain the best practices for updating, upgrading, reinstalling, configuring and using macOS Sequoia
- Explain macOS Sequoia troubleshooting and repair procedures
- Use appropriate tools and techniques in macOS Sequoia to diagnose and resolve issues

Audience:

Whether you're an experienced system administrator or you just want to dig deeper into macOS, you'll learn to update, upgrade, reinstall, configure, maintain, diagnose and troubleshoot macOS Sequoia.

This course is for anyone who needs to support, troubleshoot, or optimise macOS Sequoia, such as IT professionals, technicians, help desk specialists, and ardent Mac users.

Prerequisite:

Recommended knowledge

- macOS familiarity
- Basic computer navigation skills
